

Data Logger Power Test Results

Required DUT Metadata		Required Test Metadata	
Parameter	Value	Parameter	Value
DUT Name	Certimus	Power meter chassis	14585A Exported Waveform
DUT Serial #	CERT455F	Output voltage	12 Volts
DUT Barcode	4002663	Current limit	0.5 Amps
Configuration of sensor inputs	Broadband	Samples Per Second	1000
Sample rate(s) of DUT	100 sps	Duration (<i>in hours</i>)	25
Gain setting of DUT	No gain settings	Parameters recorded	Voltage and Current
GPS config of DUT	On Permanently	Data file name	Certimus.dlog
GPS antenna type	External	Test start time	Date: Mon Mar 8 17:38:12 2021
Data archive settings	External memory	Data download time	10 minutes
Flash memory type	Retrievable Micro SD		
Flash memory barcode	No barcode		

Notes:

Normal Deploy. Its natural gain is 22.8 dB.

Notes:

Data was downloaded via ethernet cable.
